

DOI Work Activity 8K: Implement Environmental Recommendations

Program Area:	Water and Power
End Outcome Goal:	UEO 2 – WATER - Deliver Water, Consistent with Applicable State and Federal Law, in an Environmentally Responsible and Cost-Efficient Manner
Intermediate Outcome:	UIO 2.3 – Address Environmental/Resource Stewardship Concerns
DOI Sub process:	4d – Conserve resources

Examples/Notes:

Work Activity Description: The activity includes work associated with implementing recommendations to address ongoing operations and new species as specified in plans developed according to NEPA, ESA, CWA, other environmental and fish and wildlife laws and regulations, and National Historic Preservation Act (NHPA). Mitigation measures include such things such as fish screens, operational changes, structural modification etc. as required by BOs, RODs, Congressional directives, and other legal mandates; and development and design of recommendations. Proactive, partnership efforts are included.

Output: Environmental Recommendations	Unit of Measure: Number of Environmental Recommendations Implemented. Actions include all environmental review recommendations/mitigation measures implemented such as fish screens, operational changes, structural modification etc. as required by BOs, RODs, Congressional directives, and other legal mandates for the program activities listed above. Count the recommendation/mitigation measure in the reporting period that it is completed and put into place. For operational measures that are not “completed”, but are continuous and implemented annually, count the measure once each year for every year it is implemented.
Definition:	
Inputs: a) Labor, water, data, b) Buyer/Seller requests, legislative mandates	Cost Drivers: Complexity of transfer, size of basin/region, Magnitude of environmental issues, number of interested parties, energy costs, extent of “real water”
